Professional Summary

Full-Stack Mobile Developer and Founding Engineer with 2+ years of experience building property management systems and custom AI assistants. Proven ability in scaling Android applications, designing secure automated billing pipelines, and integrating local LLMs for enterprise automation.

Technical Skills

- **Languages** Kotlin, Java, Swift, JavaScript, Python, PHP, C, C++
- **Mobile Development** Android SDK, Jetpack (Compose, LiveData, ViewModel, Room), Coroutines, MVVM, Retrofit/OkHttp, iOS (Swift, SwiftUI)
- **Web & UI Development** React.js, Node.js, Express.js, PHP, WordPress, MongoDB, Material 3, Glassmorphism
- **Cloud, AI & Backend** Firebase, Google Cloud Platform, REST APIs, Payment Gateways (Razorpay, Cashfree, PayU, PhonePe), LLM Integrations (Groq API, Local Models)
- **Tools & Practices** Git/GitHub, Agile/Scrum, CI/CD Basics, API Testing, Debugging & Performance Optimization

Professional Experience

•Shft-In, Noida, Sector 63, Uttar Pradesh 201309, India

Lead Software Development Engineer Sep 2025 – Present

- Leading a 4-member technology team to build the Shft-In Property Management System (Play Store | App Store) for locations across Noida and Gurgaon, authoring Product Requirements Documents (PRDs) and cutting manual processing time by almost 90%.
- Built automated billing pipelines and an earnings analytics dashboard using Firebase and Google Cloud that the operations team now relies on for 90% of day-to-day reporting, upgrading from largely manual workflows.

•Stazy, Noida, Sector 70, Uttar Pradesh 201301, India

Software Development Engineer Jun 2024 – Sep 2025

- Led a 9-member mobile and web engineering team for the Stazy co-living management platform (Play Store) serving 2,000+ active tenants, managing the core `live.stazy.admin` Android package.
- Owned the full Software Development Life Cycle (SDLC): RESTful API design/integration, secure payment processing, and large-scale Firebase deployment across 4 linked applications, reducing deployment time by 70%.

•Stazy, Noida, Sector 70, Uttar Pradesh 201301, India

Software Development Intern Oct 2023 – May 2024

- Contributed to requirements gathering, UI implementation, and foundational backend development, earning a promotion to Software Development Engineer within 8 months.

Key Projects

•Stazy – Property Management Application *Jan 2024 – Apr 2024*

Java, XML, Firebase, PHP/MySQL, Google Auth, REST APIs

- Integrated 10+ third-party APIs (Google Maps, Google Pay, Twilio, Razorpay, Cashfree, PayU, PhonePe) to enable secure payments, communication, and location services, processing 1000+ transactions every month.
- Delivered tenant management, maintenance tracking, and secure document/communication workflows across a 4-app product suite used by 600+ users.

•Annapurna Army – Food Donation & Management App *Jan 2023 – Mar 2023*

Java, XML, Firebase, Google Maps API

- Commissioned as a government-backed initiative by the Gorakhpur MLA's office; designed a three-role app suite (user, admin, volunteer) with location-based donation tracking, supporting 100+ donations across 5 volunteers.

•Nexa – Custom AI Assistant *Apr 2026 – May 2026*

Python, Groq API, Firebase, System Automation

- Engineered a voice-activated AI assistant using local LLM methodologies and public APIs for system automation, cutting query response time to under 4 seconds.
- Integrated the assistant with a Firebase database to surface real-time insights on company revenue and outstanding dues, saving 10 hours/week of manual tracking.

Education

Degree	Institute	CGPA/%	Year
B.Tech (UG)	MMMUT, Gorakhpur, Uttar Pradesh, India	8.55/10.0	2021–2025

Achievements & Leadership

- Development Head, Development Club, MMMUT; Executive Committee Member (50+ members), Cultural Synod, MMMUT
- Solved 500+ problems on competitive coding platforms; 40+ open-source contributions
- Designed a real-time Mess Management System for MMMUT Hostels; 2nd position, Project Exhibition, GDSC
